

Fatima Aviles Villa

I am a psychologist by career, but a software developer at the core. This field is my passion and provides what my previous career path did not, keeping me engaged with every project, solution, and challenges I take.

EXPERIENCE

Ksquare University | Merida Yucatan, Mexico

Software Associate

March - 2020

An internship program that teaches from soft skills, design thinking and the fundamentals of computer science to useful tools to build web applications.

Mobiik | CDMX, Mexico

Jr. Software Engineer

January - October 2019

Contributed in front end SAAS chatbot using AngularJs, documented the same Restful API and contributed to Suggestic IOS application writing the user stories.

Performance Packaging Group | Lenexa, USA

Mongoose

Git

LANGUAGES

Spanish - Native speaker

English - Fluent

Russian - Beginner

Community Service

Redeemer Lutheran Church

I helped the migrant community to adapt, by teaching them English and helping with translations.

Nicolas Campa

I taught English to grades fourth to sixth of elementary school in Santiago de Queretaro, to kids with very different levels of knowledge of the language.
